

Garmin GTX ADS-B Out Software Upgrade

FAA STC # SR02591LA

Applicable Aircraft: MD Helicopters 369HE/HS/HM/D/E/F/FF

2016 Pricing: *See Precision Heli-Support, LLC price list*

Installation: less than 4 hrs.

System Description: Fastest way to become FAA ADS-B Out compliant (January 1st, 2020). Perform a simple software upgrade to the existing Garmin GTX 33H/33DH or GTX330/330D Transponders if interfaced with an existing Garmin GNS (WAAS) or GTN series GPS.

- Remove the existing Garmin GTX 33/330 Transponder; send to an authorized dealer for ES software upgrade per information specified in the STC installation data.
- Only requires (1) RS-232 wire installed (if not already installed) between existing Garmin GNS (WAAS)/GTN series GPS to transponder.
- Existing GPS antenna installed either on the aircraft Engine Inlet Fairing or Boomfairing regions.
